**Siemens EA Customer Association Spring (SECA) 55 Conference: RESCHEDULED**

After careful evaluation of the risks associated with travel due to the continuing threat of the Novel Coronavirus (COVID-19), the SECA Board of Directors has made the decision to reschedule the Spring SECA 55 user group conference that was planned for April 26-30, 2020 in Sacramento, CA. The safety and well-being of our members are the most important factors we considered in our decision to reschedule this conference. We have planned with the Kimpton Sawyer Hotel to reschedule and host the next Spring SECA Conference at the Kimpton Sawyer Hotel in Sacramento, CA in the spring of 2021.

At this time, we are planning to have the Fall SECA user group conference as scheduled in Minneapolis, MN October 11-15, 2020. We will continue to monitor the Coronavirus threat and adjust our plans accordingly.

Information about SECA and Conference details can be found at www.secaweb.com.
Siemens will be hosting a webinar to present the Product Update for the customer base with the details below: Siemens is committed to keeping you updated on our Product Direction. With the delay of SECA, Siemens will be offering a two-hour webinar to provide a Product Update by our product managers. You can expect to hear about the following products/topics:

Patch Management

Hardware and Visualization

Enterprise Modeling Management (EMM), Energy Imbalance Market (EIM), and Smart Grid Engineering Manager (SGEM)

Spectrum Power™ Platform Updates

Spectrum Power™ TNA / OTS

Digital Grid Security

Microgrid Management System (MGMS)

Siemens will provide an update on products and be open for a question/open discussion for the last half an hour.

Date: **April 29, 2020 from 9:00 – 11:30 am CST** (Put a reminder on your Calendar)
Method: Circuit Link is available on the www.secaweb.com for the noted date.

I look forward to seeing you in Minneapolis!

Regards,
Jack Campbell
SECA President
