

SECA Future Directions Working Group Charter

2012.04.22.

Primary Areas of Focus

Prioritize and advise customer concerns prior to the development cycle

Objectives and goals

Serve as pipeline for future development to and from Siemens

Act as a forum to facilitate communication between working group participants and Siemens relating to new products in a positive open and unbiased manor (proposed)

Meeting frequency and duration

Every SECA conference

In recognition of the need to reduce the time between communication to Siemens and its costumers on new product issues an emphasis will be places on improved communication between conferences using all the tools available (proposed)
